

**Colleen Vilary, BSN, RN**  
**Program Manager & Director of Clinical Services**

Colleen Vilary serves as Program Manager and Director of Clinical Services for Curis Health Management, where she oversees clinical operations, staff development, health and safety standards, and the delivery of high-quality, person-centered services for individuals with developmental and complex medical needs. With more than a decade of nursing leadership experience, Colleen brings extensive expertise in clinical oversight, interdisciplinary care coordination, staff supervision, quality assurance, and regulatory compliance.

As a Registered Nurse with a Bachelor of Science in Nursing, Colleen has dedicated her career to supporting medically fragile and developmentally complex populations across hospital, rehabilitation, urgent care, and community-based settings. Her experience includes overseeing clinical and support staff, implementing policies and procedures, monitoring health and safety practices, conducting training and competency evaluations, and ensuring services are delivered in a safe, compassionate, and person-centered manner.

Prior to joining Curis Health Management, Colleen held nursing leadership and operational management roles with respected healthcare organizations including Virtua Voorhees Hospital, PM Pediatrics Urgent Care, Weisman Children's Rehabilitation Hospital, and Nemours A.I. duPont Hospital for Children. Throughout her career, she has worked closely with families, physicians, therapists, and multidisciplinary teams to coordinate individualized care, promote positive outcomes, and support individuals with complex medical and developmental needs.

At Curis Health Management, Colleen plays a critical role in program oversight, clinician support, and the ongoing development of best practices that align with person-centered care, quality service delivery, and the highest standards of clinical excellence. Her leadership helps ensure that individuals and families receive compassionate, dependable, and clinically informed support designed to promote safety, independence, and quality of life.
